

HULTDINS Transfer Pump

Part no: 0138045

Components:

- Lid complete with brackets to store wound hose
- Follower plate with seal and support for pump tube
- Pump
- Hose 2 m with hose clamps and quick couplers for Hultdins Chain Grease Pump
- Return hose for recycling of grease to bucket

Hultdins grease filler for Chain Grease Pump

Product features:

- Durable pump handle and welded pump tube
- Lid seal with double o-rings, brass piston ring
- Optimized follower plate for emptying bucket reduces waste
- Release valve to facilitate demounting of quick coupler when refilling is done
- Completely closed return system to reroute grease from the relief valve back into the bucket
- Oversized hose and 3/4" couplings reduce pressure drop when used in cold conditions
- Spare parts available if needed

Completely closed system - no more waste !
